

CLIVAR WGOMD workshop on High resolution Ocean Climate modelling

Thanks to: International CLIVAR and U.S. CLIVAR
GEOMAR , ONR, NSF, NOAA, NASA, and DoE

Objectives

- Review developments in high resolution ocean models for climate
- Exchange about strategies, questions
- Highlight new processes and sensitivities likely to emerge
- Exchange about technical issues, model validation

Session 7, Wednesday afternoon:

- Wrap up some issues?
- Coordination of our efforts? High res MIPs for CMIP6?
- A protocol for high resolution CORE-forced simulations?
- Workshop output: publication? A special issue?
